Mobius Life appoints Business Implementation Director

Fast-growing institutional investment platform, Mobius Life, has appointed Kevin Openshaw as Business Implementation Director. Kevin will be responsible for managing the take on of major new clients onto the Mobius Life platform.

Kevin was previously Head of Investment Operations at both Friends Life group and AXA Wealth where he was instrumental in the development of their institutional investment platforms. More recently, Kevin has been providing consultancy services to many of the established institutional investment platforms.

The appointment follows the announcement that Mobius Life is working with Old Mutual Wealth to provide a seamless platform transition for Old Mutual Wealth's institutional clients that wish to move from Old Mutual Wealth to Mobius Life. Old Mutual Wealth announced in November 2017 that it was closing its institutional investment platform to new business.

Adrian Swales, Chief Executive, Mobius Life says:

"We are seeing strong growth at Mobius Life. Advisers and pension schemes are recognising the value of working with a provider which is completely independent, and fully focused on being a great platform as its core business.

"I am very pleased to welcome Kevin Openshaw to Mobius Life. He has worked with many institutional investment platforms and has a remarkable knowledge of the sector. He will help us to ensure the continued smooth and efficient take on of new client business as more pension clients and their advisers turn to Mobius Life as their chosen platform provider."
